IMS Policy

Quality, Energy- & Environmental Policy

Quanex IG Systems Europe **(Edgetech Europe GmbH)** is committed to doing the right thing by meeting customer requirements, enhancing customer satisfaction, saving energy, protecting the environment and continually improving its products, services, and processes while complying with all applicable statutory, regulatory, and compliance obligations.

We are committed to conducting business with integrity, honesty, accountability, and respect, recognising our ethical and moral responsibilities to employees, customers, suppliers, communities, and other interested parties. We promote a culture of ethical behaviour, responsible decision-making, inclusion, and continuous improvement.

We are committed to protecting the environment through pollution prevention, sustainable practices, and responsible energy and resource management, while continually improving our Integrated Management System, so to continuously improve our performance on quality, energy and environment. We consider energy efficiency and environmental aspects in designing our facilities and procurement.
We are equally committed to providing a safe, healthy, and supportive workplace that promotes employee wellbeing and engagement.

This policy provides the framework for setting and reviewing our quality, energy- and environmental objectives, ensuring quality, energy efficiency, sustainability, ethical conduct, and continual improvement are embedded in all aspects of our operations and decision-making processes in compliance with our code of conduct (CREED). We provide the necessary information and resources to accomplish our targets.

Heinsberg, September 2026
